PLATINUM DESCALER

INDUSTRIAL SAFE ACID

Platinum Descaler. This new industrial SAFE ACID product does not contain HCL (hydrochloric acid).

Platinum Descaler will safely dissolve the scale build up within your equipment WITHOUT the hassle of total dismantle.

Proven to have the lowest corrosion rate in the market, Platinum Descaler will clean your equipment down to the original metal without pitting or discoloring the surfaces.

Platinum Descaler is safe on copper nickel, iron, plastic, PVC, rubber, steel, fiberglass, titanium, bronze, stainless steel and other metals.

Just ask for the PINK stuff!
